Summary

Computer Science undergraduate and multi-award-winning developer with a proven track record of building high-impact AI solutions. Winner of the Avishkaar and Sankaalp Hackathons, specializing in integrating LLMs and FastAPI to automate complex workflows in agriculture and legal compliance. Expert in Java, Python, and Full-Stack development, dedicated to engineering scalable systems that solve real-world problems.

Education

Maharaj Vijayaram Gajapathi Raj College of Engineering, Vizianagaram Nov 2022 – April 2026

B.Tech in Computer Science and Engineering

CGPA: 8.85

Achievements

- Awarded 1,00,000 as the winner of the Avishkaar Hackathon (AITAM), securing 1st rank among 50+ teams for developing a high-impact prototype
- Won Sankaalp Hackathon (MVGR) by building NextGenT, an AI-driven multi-agent SDLC system recognized as the top solution among 50+ teams
- Shortlisted as a national finalist in the NLP Challenge (IIT Kharagpur) for developing a mental-health chatbot with 80% success rate
- Finalist in GPAI Case Club Competition (IIT Madras) for proposing a scalable AI-driven STEM learning framework

Skills

Languages: Java, Python, C, C++, Dart

Web & Mobile: HTML, CSS, JavaScript, React.js, Android (Java), Flutter

Backend & AI: FastAPI, LangChain(Basic), Node.js

Databases & Cloud: MySQL, PostgreSQL

Tools: Git, GitHub, Docker, Postman, Android Studio

Projects

XCropAI

October 2025 – December 2025

React, Supabase(PostgreSQL), GROQ Models, FastAPI

- Built an AI-driven crop disease detection and advisory platform using multimodal LLMs
- Developed scalable FastAPI services, reducing manual analysis by 60%

Tax Suthradhar

July 2025 – October 2025

React.js, LangChain, GROQ Models, Supabase (PostgreSQL), Docling, FastAPI

- Developed AI-powered tax compliance system tracking 30+ policies
- Automated compliance workflows, improving processing speed by 70% with high accuracy

Sky Stream

February 2025 – March 2025

Java, XML, Android Studio, Google Drive API

- Built Android app to stream videos directly from Google Drive
- Optimized playback performance, reducing buffering by 15%

Certifications

The Joy of Computing using Python – NPTEL

Problem Solving through Programming (C) – NPTEL
